

## 1. Title of the Practice :- 'Let Us Fight Against Covid -19'

## 2. Objective of the Practice

- 1) To create awareness about Covid-19 in the society
- 2) Precaution to be taken during Covid-19
- 3) To remove the fear of Covid- 19
- 4) To emphasize on the importance of cleanliness health and hygiene.
- 5) To enhance the moral of people.
- 6) To co-operate the government as a social responsibility.
- 7) To create awareness of Corona Vaccination among the society.

## 3. The Context

Almost every person was frighten The death ratio was increasing day by day. It was a new disease so the government and the society were unaware about it. There was a tremendous fear in the mind of people as it was a contagious disease. So the people were not in a position to help each other. In addition to it, medical facilities were inadequate. They were reluctant about Vaccination. So as a part of social obligation, we all teachers of the college came forward to cooperate the government during Covid-19

## 4. The Practice.

Covid-19 was declared as a Pandemic. Medical Facilities were inadequate. There were many misapprehension and prejudices about Covid-19 in the society. As a moral and Social responsibility, the teachers of our college had willingly decided to help the government to create social awareness about Covid-19 in the society. To begin the task, the consent of local administration was taken and under its supervision the teachers visited the small village Wanjari, Tadumari, And Baggi-Akoli of Kelapur Tahsil. They arranged the meeting of villagers and counseled them and remove the fear about Vaccination as they were bias about it. In this way we motivated the villagers to get vaccinated.

As Teachers are an intrical part of the society, national responsibility, duties, social values and obligation are included in the curriculum of Higher Education. So as a social Obligation all teachers of our college willingly cooperated the local administration in the task of vaccination programme which was carried out in the villages of Kelapur Tahsil.

Lack of means of transportation legal power to control the people were the challenges before the teachers. In spite of it, the teacher cordially Communicated with the villagers and convinced them the importance of Vaccination, Use of mask, Social distancing and importance of health and hygiene.

## 5. Evidence of Success

At the beginning there were many rumors, misunderstanding and biases in the mind of people. And this was biggest challenge for the teachers, first of all they council them to remove the fear of covid-19 from the society. They tried to maintain the social distance and narrated the importance of cleanliness, health and hygiene. As a result of it, the people started testing of Covid-19 and the percentage of the test went on increasing day by day. In this way, we helped the local administration in controlling the contagious disease.

## 6. Problem Encountered and Resources Required

In this task we got cooperation and assistance from the local administration , Head of Grampanchayat , Talathi. Primary Health Centre, Aasha workers ad school authority of Z. P. School. Due to such a team efforts and cooperation of many government agencies and department we could work in this adverse situation and the villages willingly participated in the task.

In this way, despite of many biases and fear of Covid-19 at the beginning, the teachers of Social science departmental of our college counseled the villages and inspired them for vaccination. As a result of it, the percentage of vaccination went on increasing day by day. By working in such a adverse situation the teachers of our college performed the duty of social obligation.
